## AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

- --1. (Currently Amended) An electronic device comprising:
- a battery storing container having an opening for placing a battery in and out of the battery storing container,
- a recording medium storing part for detachably storing a recording medium; and
- a plurality of circuit boards constituting predetermined circuits, wherein

said recording medium storing part and said plurality of circuit boards are placed <u>respectively on separate sides of said battery storing container in a nonoverlapping relationship</u> so as to surround an outside of said battery storing container except at said opening.

- --2. (Previously Presented) The electronic device according to claim 1, wherein one of said plurality of circuit boards comprises an image display unit.
- --3. (Currently Amended) The electronic device according to claim 1, wherein said <u>separate sides of said</u> battery storing container <u>comprises</u> <u>comprise</u> six external planar elements forming the outside thereof, said opening is formed in a first

planar element of said six external planar elements, said recording medium storing part is disposed in on a second planar element that is perpendicular to said first planar element, and one of said plurality of circuit boards comprises an image display unit is and is disposed in on a third planar element that is parallel to said second planar element and said circuit boards other than said image display unit are disposed in on three remaining planar elements other than said first to third planar elements.
